CV

Profile

My name is Rikke, and I hold a master degree in Industrial Design from Designskolen Kolding. I am a very positive and curious person, I like to work in the Adobe package, 3D and I believe good teamwork is essential. People have called me; structured, happy, outgoing and at times perfectionistic. My dream is to work in a company, where I can make a difference for the end user. I believe that a user friendly design is essential when composing a product, a service, instructions or maybe a compination of more. To put the user in the middle is how I always start my process.

Work experience

2018 -20 **Device R&D, Novo Nordisk A/S**

Industriuel designer May 2018 - January 2020
(Maternity cover)

I was part of the design team for Novo Nordisk device R&D. My role was to support multiple projects with design help, such as product development for devices, packaging and IFUs. I also supported with a lot of graphical design tasks, such as illustration work and layout development. I participated in user studies and implemented findings from the user into our designs.

- IFU design
 - Graphic design
 - Product design
 - Ideation and detailing
 - CREO & Keyshot 3D work
 - User integration
-

2018 **Oticon, William Demant**

Design intern on specific project, Jan. - March

Through 8 weeks, I was part of the Discovery team at Oticon. My main role was to contribute with a design proposal for a specific product (classified). I worked on the form, aesthetics, usability, prototyping, materials and colors.

- Product research
- Ideation and detailing
- Forming
- SolidWorks sketching

2017 **CABRINHA Neil Pryde Group, Hong Kong**

Design Intern, Feb. - April

Redesign of their current kitesurf binding, for production. Innovative design and with a goal of increasing sales of both boards and bindings. Project management, detailing, forming, problem solving and drawings in SolidWorks, for production.

- **Research**
- **Concept development**
- **Test of bindings**
- **Sketching**
- **Design**
- **3D production drawings in SolidWorks**

2015 **ECCO Sport, Tønder southern jutland, Denmark**

Design intern, March - Dec.

For 6 months I worked as a design intern at the team of ECCO Sport, while also finishing my bachelor project “the perfect crossfit shoe”. After my exam I was offered an extension to finish the design group, which was taken into the 2017 collection for sale. The group was named [ECCO BIOM Amrap](#).

- **Research**
- **Concept development**
- **Sketching**
- **Design**
- **Technical drawings
2D for production**

Personal interests

I am a very active person, and spend most of my sparetime doing multiple sports (kitesurfing, SUP, Crossfit, Yoga, running, triathlon). That makes me goal orientated and competitive in mindset. My family and friends like to refer to me as, "the woman who can not sit still".
